

INSURANCE & REINSURANCE

SHB HAS A LONG HISTORY OF SUCCESSFUL REPRESENTATION OF CLIENTS INVOLVED IN INSURANCE COVERAGE DISPUTES.

SHB attorneys have in-depth knowledge of general and business litigation issues, insurance coverage issues and the insurance industry in general, including both domestic and international insurance and reinsurance markets.

Insurance Practice

A substantial practice area within our firm handles insurance coverage litigation. Representation in this practice area is handled from each of the firm's nine offices, but is centered in the Kansas City and Washington, D.C., offices. Our attorneys have litigated, mediated, arbitrated, and negotiated claims arising from a broad range of different policy forms, including primary, umbrella and excess commercial general liability occurrence and claims-made forms; occurrence reported (Bermuda) forms; special multi-peril forms; environmental impairment liability forms; D&O; fiduciary and errors and omissions policies; employment practice liability forms; and first-party property and business interruption policies.

Reinsurance Practice

SHB attorneys have extensive experience in the resolution of complex reinsurance disputes. We represent cedents, including captive cedents, reinsurers and retrocessionaires in a wide range of matters in a consulting capacity, in arbitrations, and in litigation in federal and state trial and appellate courts throughout the United States. We are fully conversant in all types of domestic and international proportional and non-proportional facultative reinsurance certificates and pro rata, quota share, surplus share, and excess of loss treaty reinsurances and retrocession agreements.
